Onboarding reminders: emails and push notifications

The wording the platform sends to candidates who have stopped part-way through onboarding. Please read each message and mark any changes. Any change is quick to make.

Prepared 2 October 2026

The three reminders

REF	SENT TO A CANDIDATE WHO ...	HOW
OC1	has been invited to the video interview (by Willo) but hasn't done it	Email
OC2	was accepted after the interview but hasn't set up their account	Email, with a new set-password link each time
OC3	has signed up in the app but has an onboarding step waiting on them	Push notification on their phone

When they are sent

- Only when the next move is the candidate's. Nobody is reminded while the office is reviewing their documents or deciding on their interview.
- The first goes a day after the candidate's last progress, then one a day. Any progress starts the count again.
- They don't stop on their own. They stop when the candidate moves forward or is rejected.
- Only between 10:00 and 18:00 UK time.
- Each reminder has three versions: Day 1, Day 2, then a Day 3 version that repeats every day after.
- After three reminders with no progress, the candidate's card on the office board is marked **Stalled** with a prompt to phone them. The reminders carry on.
- Emails come from admin@. Candidates can reply to them.

How to read the messages

Highlighted words are filled in for each candidate: **First name** their first name, **Set-password link** and **App download link** their personal links, and **Step** the onboarding step waiting on them (listed on the OC3 page).

Video interview not done yet

Willo sends the interview invitation itself, so these emails point the candidate back to it.

Day 1 First reminder, a day after their last progress

YOUR VIDEO INTERVIEW

Your video interview with The Hospitality Company

Hi **First name**,

Thanks for applying to The Hospitality Company. Your video interview is ready and waiting for you.

The invitation came by email from Willo, the service we use for interviews. Search your inbox for "Willo", and check your spam or promotions folder too. You can record your answers on your phone, whenever suits you.

Once you've finished, we'll be in touch about the next steps.

Day 2 The next day, if nothing has moved

Accepted, but the account isn't set up

Each email carries a new set-password link, because a link works once and expires after 24 hours.

Points to confirm

- **No interview link in OC1.** Willo sends the invitation and we don't receive its link, so OC1 asks the candidate to search their inbox for "Willo".
- **Notifications turned off.** A candidate who has turned off notifications won't see OC3. Their card on the office board turns amber with a prompt to phone them.
- **Daily emails with no end date.** As agreed, reminders never stop on their own. Over a long run, some email providers may start treating them as bulk mail. If that happens, the gap between reminders can be widened without any rebuild.
